## PROFILE INFO

I'm a simple, cheerful, social and outgoing person. I've always taken part in many extracurricular activities, like soccer (for 13 years), volleyball (for 6 years), student council (1 year), volunteering and some jobs. I have a great love for sports, but especially for technology, I'm a FullStack Web Developer, based in Braga, with a passion for problem-solving and software development.

My expertise lies in frontend and backend development, primarily using JavaScript and Python, paired with the capability to manage frontend tasks, allowing me to deliver end-to-end solutions.

## EXPERIENCE
